

Validation

RGF® first developed its Advanced Oxidation Technology over 20 years ago. Over 1 million RGF cells are in use around the world. RGF® has licensed its technology to many Fortune 500 companies for use in the medical, food, military, residential, commercial, marine, hospitality and government industries. RGF® cells in various products have been tested and approved by:

- ETL, TUV & CSA
- U.S. Military
- USDA, FSIS and FDA
- Chinese, Japanese (TV commercials), European and Canadian Governments
- European Union

In addition, RGF® technology, because of its ability to kill bacteria and viruses on surfaces as well as in the air, has been specified in the Norovirus/MRSA protection plan of America's largest restaurant chains, hotel chains, theme parks, cruise lines, public schools and hospitals.

Test Results and Approvals

Samples of university & independent lab tests and major corporation studies

- Tested on H1N1 Swine Flu with 99% Kill on surfaces
- 4-log reduction (99.99%) surface bacteria/virus
- Over 85% VOC reduction
- 99% of microbes in human sneeze killed at 3 feet
- 97% airborne bacterial reduction
- 99% reductions of Norwalk, E. coli, Strep, Tuberculosis and other infectious diseases
- 85% odor reduction
- 97% airborne mold reduction
- US Schools report 20% reduction in absenteeism
- Approved by the U.S. Military for mold protection in field hospitals
- Received hospital approval for 99% reduction of Staph (MRSA)
- Approved by the Chinese Government for protection against the SARS virus

Safety

It is a normal reaction to question the long-term safety of any product that is effective and uses new or "breakthrough" technology. This type of question has become common as our litigious society has taught us to question things that significantly outperform existing methods or products.

• The breakthrough in the RGF® advanced oxidation technologies is a group of oxidants known as Hydroperoxides. Hydroperoxides have been a common part of our environment for over 3.5 billion years. Hydroperoxides are created in our atmosphere whenever three components are present: oxygen molecules, water vapor and energy (electromagnetic). PHI™ has the ability to create hydroperoxides.

Ionized-Hydro-Peroxides™ are very effective at destroying harmful surface and airborne microbials. As oxidants, they do this by either destroying the microbe through a process known as cell lysing or by changing its molecular structure and rendering it harmless (which is the case in VOC's and odors). The amount of hydroperoxides required to accomplish this task is consistently in our outside air. The Advanced Oxidation Technology found in RGF's® Guardian Air product family has brought the oxidants found in the outside air into the conditioned space of your home or business.

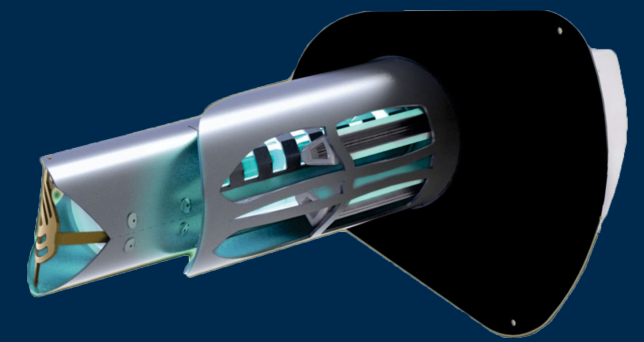

There is no known case of hydroperoxides ever creating a health risk. We have been exposed to hydroperoxides in nature since the dawn of mankind. It is therefore a reasonable assumption that hydroperoxides do not constitute a health risk. Consider the fact that over the past 20+ years, RGF® has more than 1 million Advanced Oxidation products successfully operational worldwide without any safety or health problems.

About Us

We've been serving the Naples, To Fort Myers, Sanibel and Captiva areas of Florida since 2006. We are the most trusted and most referred air conditioning repair and installation contractor in the area. As a NATE-certified and Trane Comfort Specialist dealer, we make it our mission to provide exceptional customer service and state-of-the-art AC products. Each and every AC product we recommend and sell is installed by highly skilled, professional comfort specialists. We take pride in serving our customers with a superior level of competency and honesty. We're always honest with our customers, even if we are at fault. We want to make you a lifelong customer, and we are here for all of your AC repair, replacement or installation needs. Our area of expertise lies in cooling, air quality and insulation for your home. We offer professional AC repair, replacement, 24/7 emergency service, installation and maintenance services. Our commitment to honesty means we will always give you flat rate pricing that is very fair in the marketplace and top-notch communication.

The Next Generation in IAQ

Is Your Home Protected?

The main advantage...

Guardian Air™ does not need the pollutants to travel to the air handler for UV treatment or filtration. Guardian Air™ is proactive and sends ionized aggressive advanced oxidizers into the room to destroy the pollutants at the source, in the air and on surfaces, before they can reach your family, clients or employees.

IN-DUCT AIR PURIFICATION SYSTEM

**NEW ZINC IONS
KILL VIRUSES
ON SURFACES**

REME HALO® sends Advanced Oxidants throughout the room to kill microbials at the source. Average sneeze microbial reduction: 99%

GASES & ODORS

The REME HALO® by RGF® is designed to eliminate sick building syndrome risks by neutralizing odors, particulate, air pollutants, VOCs (chemical odors), smoke, mold bacteria and viruses. The REME HALO® is easily mounted into air conditioning and heating systems air ducts where most sick building problems start. When the HVAC system is in operation the REME HALO® creates an Advanced Oxidation Plasma consisting of: Ionized Hydro-peroxides, Super oxide ions and Hydroxide ions. All are friendly oxidizers. By Friendly oxidizers we mean oxidizers that revert back to oxygen and hydrogen after the oxidation of the pollutant.

- **Quick Release Feature**
No tools required for servicing
- **Kills Bacteria, Mold & Viruses**
No tools required for servicing
- **Neutralizes Odors & Air Pollutants**
- **Utilizes New Zinc Ions**
To kill 99% of surface viruses and bacteria
- **Advanced Oxidation Plasma**
Contains friendly oxidizers
- **Reduces 99% of Sneeze Germs**
Within three feet
- **Recommended by:**
Major hotel and restaurant chains, cruise lines for norwalk virus protection and the military for mold reduction

Independently tested on surfaces and airborne 99+% kill rate.
Note: The REME Cell is not a medical device and no medical claims are made.

5 YEAR WARRANTY
Green Product Average
Uses Only 13 Watts
